

SUJIN SABU

Cybersecurity Professional | Ethical Hacker | Security Analyst

+91-9747886284 | sujinsabu2617@gmail.com | linkedin.com/in/sujin-sabu-671392229 | Kollam, Kerala, India

PROFESSIONAL SUMMARY

OSCP-certified cybersecurity professional with a B.Tech in Computer Science. Trained in Network, Web Application, Wireless, Android, and Active Directory Penetration Testing, along with SIEM and SOC operations. Hands-on practice through TryHackMe, BTLO, LetsDefend, and PortSwigger. Skilled in Burp Suite, Metasploit, Nmap, and Wireshark. Targeting a Security Analyst or Ethical Hacker role.

TECHNICAL SKILLS

Tools: Burp Suite, Metasploit, Nmap, Wireshark, Nessus, Nikto, Splunk, Hydra, John the Ripper, Aircrack-ng

Domains: Network Pentesting, Web App Security, Wireless Security, Android Pentesting, Active Directory Attacks, SIEM, SOC Analysis

Platforms: TryHackMe, Blue Team Labs Online (BTLO), LetsDefend, PortSwigger Web Security Academy

Languages & OS: Python, Bash, SQL, Kali Linux, Parrot OS, Ubuntu, Windows Server

TRAINING & EXPERIENCE

Offenso Certified Security Professional (OCSF) | Aug 2025 - Mar 2026
Offenso Hackers Academy, Trivandrum

- Trained in 9 domains: Network, Web App, Wireless, Android, Active Directory Pentesting, Microsoft Security, SIEM, SOC, and Reporting.
- Ran full VAPT cycles - recon, scanning, exploitation, and reporting - on 10+ simulated enterprise targets.
- Completed 15+ rooms on TryHackMe, 10+ BTLO challenges, 15+ LetsDefend SOC investigations, and OWASP Top 10 labs on PortSwigger.
- Wrote structured VAPT reports with CVSS scores, proof-of-concept evidence, and remediation steps for each finding.

KEY PROJECT

PhishGuard+: Real-Time Heuristic Phishing Detection | Jan 2026
Offenso Hackers Academy

- Built a Chrome browser extension that detects phishing URLs in real time using heuristic rules and VirusTotal API.
- Achieved 91.5% detection accuracy on 200 test URLs (88 true positives, only 5 false positives).
- Detects combosquatting (e.g. paypal-login.xyz) by checking brand names in subdomains vs root domains.
- Scans downloaded files against 70+ antivirus engines via VirusTotal hash lookup before execution.

EDUCATION

B.Tech - Computer Science Engineering

| Dec 2021 - Jun 2025

UKF College of Engineering and Technology, APJ Abdul Kalam Technological University, Kollam

Coursework: Computer Networks, Operating Systems, DBMS, Data Structures
